

Parking Directions

When turning into Police Headquarters you should see a building directly in front of you. This is the Communications Building and the Police Authority is located on the second floor of the building.

In order to park take the first turning on your left, before the barriers (see picture).

The Entrance to the Police Authority is located on the side of the communications building (see second picture), it is the furthest door on the right overlooking the main road entrance.

Do Not go around to the main entrance as the security will not be able to let you in.

When you get to the door, you should notice a sign stating that it is the police authority entrance.

Press buzzer located to the right of the doors and wait for someone to answer. When door has been unlocked **PUSH** the door to release the locking mechanism and then **PULL** to open it.
